| Host                        | Goat                                                                                                                                                                                                                                                                              |
| Gene ID                     | 3558                                                                                                                                                                                                                                                                              |
| Gene Symbol                 | IL2                                                                                                                                                                                                                                                                               |
| Species                     | Human                                                                                                                                                                                                                                                                             |
| Specificity/Sensitivity     | Detects human IL-2 in direct ELISAs and Western blots. In direct ELISAs, greater than 50% cross-reactivity with recombinant rabbit IL-2 is observed and less than 20% cross-reactivity with recombinant bovine IL-2, recombinant mouse IL-2 and recombinant rat IL-2 is observed. |
| Immunogen                   | <i>E. coli</i> -derived recombinant human IL-2<br>Ala21-Thr153<br>Accession # P60568                                                                                                                                                                                              |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                                                                                                 |
| Product Application Details |                                                                                                                                                                                                                                                                                   |
| Applications                | Western Blot, ELISA, Immunocytochemistry, Neutralization                                                                                                                                                                                                                          |
| Recommended Dilutions       | Western Blot, ELISA, Neutralization, Immunocytochemistry                                                                                                                                                                                                                          |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                                                            |
