| <b>Gene Symbol</b>                 | FASLG                                                                                                                                                                                                                                                         |
| <b>Species</b>                     | Rat                                                                                                                                                                                                                                                           |
| <b>Specificity/Sensitivity</b>     | Detects rat Fas Ligand/TNFSF6 in direct ELISAs and Western blots. In direct ELISAs and Western blots, approximately 20% cross-reactivity with recombinant mouse Fas Ligand is observed and 5% cross-reactivity with recombinant human Fas Ligand is observed. |
| <b>Immunogen</b>                   | Mouse myeloma cell line NS0-derived recombinant rat Fas Ligand/TNFSF6 Leu104-Leu278<br>Accession # P36940                                                                                                                                                     |
| <b>Product Application Details</b> |                                                                                                                                                                                                                                                               |
| <b>Applications</b>                | Western Blot, Immunocytochemistry                                                                                                                                                                                                                             |
| <b>Recommended Dilutions</b>       | Western Blot, Immunocytochemistry                                                                                                                                                                                                                             |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                                        |
