| <b>Gene Symbol</b>                 | NOV                                                                                                                                                                                                                                 |
| <b>Species</b>                     | Mouse                                                                                                                                                                                                                               |
| <b>Specificity/Sensitivity</b>     | Detects mouse NOV/CCN3 in direct ELISAs and Western blots. In Western blots, approximately 20% cross-reactivity with recombinant human NOV is observed and less than 1% cross-reactivity with recombinant mouse WISP-1 is observed. |
| <b>Immunogen</b>                   | Mouse myeloma cell line NS0-derived recombinant mouse NOV/CCN3 Ser26-Ile354<br>Accession # Q64299                                                                                                                                   |
| <b>Notes</b>                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                                                   |
| <b>Product Application Details</b> |                                                                                                                                                                                                                                     |
| <b>Applications</b>                | Western Blot                                                                                                                                                                                                                        |
| <b>Recommended Dilutions</b>       | Western Blot                                                                                                                                                                                                                        |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                              |
