| <b>Species</b>                     | Mouse                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Specificity/Sensitivity</b>     | Detects mouse MFRP in direct ELISAs and Western blots. In direct ELISAs and Western blots, approximately 30% cross-reactivity with recombinant human (rh) MFRP is observed, 15% cross-reactivity with recombinant mouse (rm) Frizzled-4 is observed, 10% cross-reactivity with rmFrizzled-1, rhFrizzled-5, rmFrizzled-8, and rmFrizzled-10 is observed, and 5% cross-reactivity with rmFrizzled-3, rmFrizzled-6, and rmFrizzled-7 is observed. |
| <b>Immunogen</b>                   | Mouse myeloma cell line NS0-derived recombinant mouse MFRP<br>Gln91-Pro584<br>Accession # Q8K480                                                                                                                                                                                                                                                                                                                                               |
| <b>Product Application Details</b> |                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Applications</b>                | Western Blot, Immunohistochemistry                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Recommended Dilutions</b>       | Western Blot, Immunohistochemistry                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                                                                                                                                                                                                                         |
