| <b>Conjugate</b>                   | FITC                                                                                                                                                                                                                                               |
| <b>Purity</b>                      | Antigen Affinity-purified                                                                                                                                                                                                                          |
| <b>Buffer</b>                      | PBS                                                                                                                                                                                                                                                |
| <b>Product Description</b>         |                                                                                                                                                                                                                                                    |
| <b>Host</b>                        | Goat                                                                                                                                                                                                                                               |
| <b>Gene Symbol</b>                 | CCL23                                                                                                                                                                                                                                              |
| <b>Species</b>                     | Human                                                                                                                                                                                                                                              |
| <b>Specificity/Sensitivity</b>     | Detects human CCL23/MPIF $\square$ 1 in direct ELISAs and Western blots. In direct ELISAs, less than 10% cross-reactivity with recombinant human (rh) MIP-1 $\delta$ , rhHCC-1, rhMIP-1 $\alpha$ and recombinant mouse MIP-1 $\gamma$ is observed. |
| <b>Immunogen</b>                   | <i>E. coli</i> -derived recombinant human CCL23/MPIF-1<br>Arg22-Asn120<br>Accession # P55773                                                                                                                                                       |
| <b>Product Application Details</b> |                                                                                                                                                                                                                                                    |
| <b>Applications</b>                | Western Blot, Neutralization                                                                                                                                                                                                                       |
| <b>Recommended Dilutions</b>       | Western Blot, Neutralization                                                                                                                                                                                                                       |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                             |
