| <b>Gene ID</b>                     | 2246                                                                                                                                                                                                                                                                        |
| <b>Gene Symbol</b>                 | FGF1                                                                                                                                                                                                                                                                        |
| <b>Species</b>                     | Mouse                                                                                                                                                                                                                                                                       |
| <b>Specificity/Sensitivity</b>     | Detects mouse FGF acidic/FGF1 in direct ELISAs and Western blots. In direct ELISAs, approximately 50% cross-reactivity with recombinant human FGF acidic is observed, and less than 1% cross-reactivity with recombinant mouse (rm) FGF7, rmFGF21, and rmFGF23 is observed. |
| <b>Immunogen</b>                   | <i>E. coli</i> -derived recombinant mouse FGF acidic/FGF1<br>Phe16-Asp155<br>Accession # NP_034327                                                                                                                                                                          |
