| Product Description         |                                                                                                                                                         |
| Host                        | Sheep                                                                                                                                                   |
| Gene ID                     | 8773                                                                                                                                                    |
| Gene Symbol                 | SNAP23                                                                                                                                                  |
| Species                     | Human                                                                                                                                                   |
| Specificity/Sensitivity     | Detects human SNAP23 in direct ELISAs and Western blots. In direct ELISAs, approximately 5% cross-reactivity with recombinant mouse SNAP23 is observed. |
| Immunogen                   | <i>E. coli</i> -derived recombinant human SNAP23<br>Asp146-Ser211<br>Accession # O00161                                                                 |
| Product Application Details |                                                                                                                                                         |
| Applications                | Western Blot, Immunocytochemistry                                                                                                                       |
| Recommended Dilutions       | Western Blot, Immunocytochemistry                                                                                                                       |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                  |
