| <b>Conjugate</b>                   | DyLight 350                                                                                                                                                                                     |
| <b>Purity</b>                      | Antigen Affinity-purified                                                                                                                                                                       |
| <b>Buffer</b>                      | 50mM Sodium Borate                                                                                                                                                                              |
| <b>Product Description</b>         |                                                                                                                                                                                                 |
| <b>Host</b>                        | Sheep                                                                                                                                                                                           |
| <b>Gene ID</b>                     | 55568                                                                                                                                                                                           |
| <b>Gene Symbol</b>                 | GALNT10                                                                                                                                                                                         |
| <b>Species</b>                     | Human, Mouse                                                                                                                                                                                    |
| <b>Specificity/Sensitivity</b>     | Detects human and mouse Polypeptide GalNac Transferase 10/GALNT10 in Western blots. In direct ELISA, less than 1% cross-reactivity with recombinant human (rh) GALNT1 and rhGALNT4 is observed. |
| <b>Immunogen</b>                   | Mouse myeloma cell line NS0-derived recombinant human Polypeptide GalNac Transferase 10/GALNT10<br>Leu71-Asn603<br>Accession # Q86SR1                                                           |
| <b>Notes</b>                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                               |
| <b>Product Application Details</b> |                                                                                                                                                                                                 |
| <b>Applications</b>                | Western Blot, Immunohistochemistry                                                                                                                                                              |
| <b>Recommended Dilutions</b>       | Western Blot, Immunohistochemistry                                                                                                                                                              |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                          |
