**FAB134W**

WIF-1 Antibody (133015) [DyLight 650]

| Product Information |                                                                                             |
|---------------------|---------------------------------------------------------------------------------------------|
| Unit Size           | 0.5 ml                                                                                      |
| Concentration       | Please see the vial label for concentration. If unlisted please contact technical services. |
| Storage             | Store at 4C in the dark.                                                                    |
| Clonality           | Monoclonal                                                                                  |
| Clone               | 133015                                                                                      |
| Preservative        | 0.05% Sodium Azide                                                                          |
| Isotype             | IgG1                                                                                        |
| Conjugate           | DyLight 650                                                                                 |
| Purity              | Protein A or G purified from hybridoma culture supernatant                                  |
| Buffer              | 50mM Sodium Borate                                                                          |

| Product Description     |                                                                                                                                 |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Host                    | Mouse                                                                                                                           |
| Gene ID                 | 11197                                                                                                                           |
| Gene Symbol             | WIF1                                                                                                                            |
| Species                 | Human                                                                                                                           |
| Specificity/Sensitivity | Detects human WIF-1 in Western blots. In Western blots, less than 5% cross-reactivity with recombinant mouse WIF-1 is observed. |
| Immunogen               | Mouse myeloma cell line NS0-derived recombinant human WIF-1<br>Gly29-Trp379<br>Accession # AAD25402                             |
| Notes                   | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                               |

| Product Application Details |                                                                        |
|-----------------------------|------------------------------------------------------------------------|
| Applications                | Western Blot, Immunohistochemistry                                     |
| Recommended Dilutions       | Western Blot, Immunohistochemistry                                     |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined. |
