| Clone                       | 134714                                                                                                                                                                   |
| Preservative                | 0.05% Sodium Azide                                                                                                                                                       |
| Isotype                     | IgG2a                                                                                                                                                                    |
| Conjugate                   | DyLight 650                                                                                                                                                              |
| Purity                      | Protein A or G purified from hybridoma culture supernatant                                                                                                               |
| Buffer                      | 50mM Sodium Borate                                                                                                                                                       |
| Product Description         |                                                                                                                                                                          |
| Host                        | Rat                                                                                                                                                                      |
| Gene ID                     | 11197                                                                                                                                                                    |
| Gene Symbol                 | WIF1                                                                                                                                                                     |
| Species                     | Mouse                                                                                                                                                                    |
| Specificity/Sensitivity     | Detects mouse WIF-1 in direct ELISAs and Western blots. In direct ELISAs and Western blots, approximately 10% cross-reactivity with recombinant human WIF-1 is observed. |
| Immunogen                   | Mouse myeloma cell line NS0-derived recombinant mouse WIF-1<br>Gly29-Trp379<br>Accession # Q9WUA1                                                                        |
| Notes                       | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                        |
| Product Application Details |                                                                                                                                                                          |
| Applications                | Western Blot                                                                                                                                                             |
| Recommended Dilutions       | Western Blot                                                                                                                                                             |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                   |
