| Gene Symbol             | IL25                                                                                                                                                                                                                                               |
| Species                 | Mouse                                                                                                                                                                                                                                              |
| Specificity/Sensitivity | Detects mouse IL-17E/IL-25 in direct ELISAs and Western blots. In direct ELISAs and Western blots, this antibody does not cross-react with recombinant human (rh) IL-17C, rhIL-17D, rhIL-17E, rhIL-17F, recombinant mouse (rm) IL-17, or rmIL-17B. |
| Immunogen               | <i>E. coli</i> -derived recombinant mouse IL-17E/IL-25<br>Val17-Ala169<br>Accession # NP_542767                                                                                                                                                    |
| Notes                   | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                                                                  |

| Product Application Details |                                                                        |
|-----------------------------|------------------------------------------------------------------------|
| Applications                | Western Blot                                                           |
| Recommended Dilutions       | Western Blot                                                           |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined. |
