| <b>Clonality</b>                   | Monoclonal                                                                                                                                                                                                        |
| <b>Clone</b>                       | 431014                                                                                                                                                                                                            |
| <b>Preservative</b>                | 0.05% Sodium Azide                                                                                                                                                                                                |
| <b>Isotype</b>                     | IgG1                                                                                                                                                                                                              |
| <b>Conjugate</b>                   | FITC                                                                                                                                                                                                              |
| <b>Purity</b>                      | Protein A or G purified from hybridoma culture supernatant                                                                                                                                                        |
| <b>Buffer</b>                      | PBS                                                                                                                                                                                                               |
| <b>Product Description</b>         |                                                                                                                                                                                                                   |
| <b>Host</b>                        | Mouse                                                                                                                                                                                                             |
| <b>Gene ID</b>                     | 355                                                                                                                                                                                                               |
| <b>Gene Symbol</b>                 | FAS                                                                                                                                                                                                               |
| <b>Specificity/Sensitivity</b>     | Detects feline Fas/TNFRSF6/CD95 in direct ELISAs and Western blots. In direct ELISAs and Western blots no cross-reactivity with recombinant human Fas, recombinant mouse Fas, or recombinant rat Fas are observed |
| <b>Immunogen</b>                   | Mouse myeloma cell line NS0-derived recombinant feline Fas/TNFRSF6/CD95 Ala25-Lys172<br>Accession # NP_001009314                                                                                                  |
| <b>Product Application Details</b> |                                                                                                                                                                                                                   |
| <b>Recommended Dilutions</b>       | Western Blot, Flow Cytometry, CyTOF-ready                                                                                                                                                                         |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                            |
