| <b>Clone</b>                       | 6H9                                                                                                                                                                               |
| <b>Preservative</b>                | 0.05% Sodium Azide                                                                                                                                                                |
| <b>Isotype</b>                     | IgG1                                                                                                                                                                              |
| <b>Conjugate</b>                   | Allophycocyanin                                                                                                                                                                   |
| <b>Purity</b>                      | Protein A or G purified from hybridoma culture supernatant                                                                                                                        |
| <b>Buffer</b>                      | PBS                                                                                                                                                                               |
| <b>Product Description</b>         |                                                                                                                                                                                   |
| <b>Host</b>                        | Mouse                                                                                                                                                                             |
| <b>Gene ID</b>                     | 51752                                                                                                                                                                             |
| <b>Gene Symbol</b>                 | ERAP1                                                                                                                                                                             |
| <b>Species</b>                     | Human, Mouse                                                                                                                                                                      |
| <b>Specificity/Sensitivity</b>     | Detects human Aminopeptidase PILS/ARTS1 in direct ELISAs and Western blots. In direct ELISAs, 100% cross-reactivity with recombinant mouse Aminopeptidase PILS/ARTS1 is observed. |
| <b>Immunogen</b>                   | <i>S. frugiperda</i> insect ovarian cell line Sf 9-derived recombinant human ARTS1<br>Accession # Q9NZ08                                                                          |
| <b>Product Application Details</b> |                                                                                                                                                                                   |
| <b>Applications</b>                | Western Blot                                                                                                                                                                      |
| <b>Recommended Dilutions</b>       | Western Blot                                                                                                                                                                      |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                                                                            |
