**Application Notes** 

Wnt-7a Antibody (946744) [DyLight 594]

| With Parkitabody (546744) [DyEight 654] |   |
|---|---|
| Product Information                     |   |
| Unit Size                               | 0.1 ml  |
| Concentration                           | Please see the vial label for concentration. If unlisted please contact technical services.         |
| Storage                                 | Store at 4C in the dark.  |
| Clonality                               | Monoclonal  |
| Clone                                   | 946744  |
| Preservative                            | 0.05% Sodium Azide  |
| Isotype                                 | lgG1  |
| Conjugate                               | DyLight 594   |
| Purity                                  | Protein A or G purified from hybridoma culture supernatant  |
| Buffer                                  | 50mM Sodium Borate  |
| Product Description                     |   |
| Host                                    | Mouse   |
| Gene ID                                 | 7476  |
| Species                                 | Human   |
| Specificity/Sensitivity                 | Detects human Wnt-7a in direct ELISAs.  |
| Immunogen                               | Chinese hamster ovary cell line CHO-derived recombinant human Wnt-7a Met1-Lys349 Accession # 000755 |
| Notes                                   | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                   |
| Product Application Details             |   |
| Applications                            | Immunocytochemistry   |
| Recommended Dilutions                   | Immunocytochemistry   |
|   |   |

Optimal dilution of this antibody should be experimentally determined.
