LINGO-1 Antibody (332237) [DyLight 488]

| Product Information |                                                                                             |
|---------------------|---------------------------------------------------------------------------------------------|
| Unit Size           | 0.1 ml                                                                                      |
| Concentration       | Please see the vial label for concentration. If unlisted please contact technical services. |
| Storage             | Store at 4C in the dark.                                                                    |
| Clonality           | Monoclonal                                                                                  |
| Clone               | 332237                                                                                      |
| Preservative        | 0.05% Sodium Azide                                                                          |
| Isotype             | IgG1                                                                                        |
| Conjugate           | DyLight 488                                                                                 |
| Purity              | Protein A or G purified from hybridoma culture supernatant                                  |
| Buffer              | 50mM Sodium Borate                                                                          |

| Product Description     |                                                                                                                                                                                                                                      |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                    | Mouse                                                                                                                                                                                                                                |
| Gene ID                 | 84894                                                                                                                                                                                                                                |
| Gene Symbol             | LINGO1                                                                                                                                                                                                                               |
| Species                 | Human                                                                                                                                                                                                                                |
| Specificity/Sensitivity | Detects human LINGO-1 in direct ELISAs and Western blots. In direct ELISAs and Western blots, approximately 10% cross-reactivity with recombinant human (rh) LINGO-2 is observed and no cross-reactivity with rhLINGO-3 is observed. |
| Immunogen               | Mouse myeloma cell line NS0-derived recombinant human LINGO-1 Thr40-Thr556<br>Accession # NP_116197                                                                                                                                  |
| Notes                   | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                                                    |

| Product Application Details |                                                                        |
|-----------------------------|------------------------------------------------------------------------|
| Applications                | Flow Cytometry, CyTOF-ready, Immunocytochemistry                       |
| Recommended Dilutions       | Flow Cytometry, Immunocytochemistry, CyTOF-ready                       |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined. |
