| Gene Symbol             | TNC                                                                                                                                                                                                                                                      |
| Species                 | Human                                                                                                                                                                                                                                                    |
| Specificity/Sensitivity | Detects human Tenascin C in direct ELISAs and Western blots. In direct ELISAs and Western blots, approximately 30% cross-reactivity with recombinant mouse Tenascin C is observed and no cross-reactivity with recombinant human Tenascin R is observed. |
| Immunogen               | Mouse myeloma cell line NS0-derived recombinant human Tenascin C Ser186-Pro625<br>Accession # P24821                                                                                                                                                     |

| Product Application Details |                                                                        |
|-----------------------------|------------------------------------------------------------------------|
| Applications                | Western Blot                                                           |
| Recommended Dilutions       | Western Blot                                                           |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined. |
