| Gene ID                     | 7479                                                                                                                                                                                                                                                                                                                                        |
| Gene Symbol                 | WNT8B                                                                                                                                                                                                                                                                                                                                       |
| Species                     | Human, Mouse                                                                                                                                                                                                                                                                                                                                |
| Specificity/Sensitivity     | Detects mouse Wnt-8b in direct ELISAs. In direct ELISAs, no cross-reactivity with recombinant mouse Wnt-1, -2b, -3a, -4, -5a, -5b, -8a, -9b, -10b, recombinant human Wnt-2, -7a, -7b, or -9a is observed. Immunohistochemical staining of the human neural cell line, NTera2, demonstrates that this antibody also recognizes human Wnt-8b. |
| Immunogen                   | <i>E. coli</i> -derived recombinant mouse Wnt-8b                                                                                                                                                                                                                                                                                            |
