IL-1 beta/IL-1F2 Antibody (B122) [Janelia Fluor® 525]

| Product Information |                                                                                             |
|---------------------|---------------------------------------------------------------------------------------------|
| Unit Size           | 0.1 ml                                                                                      |
| Concentration       | Please see the vial label for concentration. If unlisted please contact technical services. |
| Storage             | Store at 4C in the dark.                                                                    |
| Clonality           | Monoclonal                                                                                  |
| Clone               | B122                                                                                        |
| Preservative        | 0.05% Sodium Azide                                                                          |
| Isotype             | IgG                                                                                         |
| Conjugate           | Janelia Fluor 525                                                                           |
| Purity              | Protein A or G purified from hybridoma culture supernatant                                  |
| Buffer              | 50mM Sodium Borate                                                                          |

| Product Description     |                                                                                                                                                                                                                                                                                                                    |

| Gene Symbol             | IL1B                                                                                                                                                                                                                                                                                                               |
| Species                 | Mouse                                                                                                                                                                                                                                                                                                              |
| Specificity/Sensitivity | Detects mouse IL-1 $\beta$ /IL-1 F2 in direct ELISAs and Western blots. In Western blots, shows 100% cross-reactivity with recombinant rat (rr) IL-1 $\beta$ and rcrIL-1 $\beta$ , 15%-35 % with rhIL-1 $\beta$ and rpIL-1 $\beta$ , and no cross-reactivity with rmIL-1 $\alpha$ , rmIL-18, or rhIL-1 $\beta$ rp. |
| Immunogen               | <i>E. coli</i> -derived recombinant mouse IL-1 $\beta$<br>Accession # P10749                                                                                                                                                                                                                                       |
| Notes                   | Sold under license from the Howard Hughes Medical Institute, Janelia Research Campus.                                                                                                                                                                                                                              |

| Product Application Details |                                                                        |
|-----------------------------|------------------------------------------------------------------------|
| Applications                | Western Blot, Immunoprecipitation, Neutralization                      |
| Recommended Dilutions       | Western Blot, Immunoprecipitation, Neutralization                      |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined. |
