| Gene Symbol             | KLK2                                                                                                                                                                                                                        |
| Species                 | Human                                                                                                                                                                                                                       |
| Specificity/Sensitivity | Detects human Kallikrein 2 in direct ELISAs and Western blots. In direct ELISAs and Western blots, no cross-reactivity with recombinant human Kallikrein 1, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, or B1 is observed. |
| Immunogen               | Mouse myeloma cell line NS0-derived recombinant human Kallikrein 2 Ile25-Pro261<br>Accession # P20151                                                                                                                       |
| Notes                   | DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                                                           |

| Product Application Details |                                                                        |
|-----------------------------|------------------------------------------------------------------------|
| Applications                | Western Blot, Immunoprecipitation, Neutralization                      |
| Recommended Dilutions       | Western Blot, Immunoprecipitation, Neutralization                      |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined. |
