| Clone                       | 698813                                                                                                                                                                              |
| Preservative                | 0.05% Sodium Azide                                                                                                                                                                  |
| Isotype                     | IgG1                                                                                                                                                                                |
| Conjugate                   | Allophycocyanin                                                                                                                                                                     |
| Purity                      | Protein A or G purified from ascites                                                                                                                                                |
| Buffer                      | PBS                                                                                                                                                                                 |
| Product Description         |                                                                                                                                                                                     |
| Host                        | Mouse                                                                                                                                                                               |
| Gene ID                     | 3263                                                                                                                                                                                |
| Gene Symbol                 | HPX                                                                                                                                                                                 |
| Species                     | Human                                                                                                                                                                               |
| Specificity/Sensitivity     | Detects human Hemopexin in direct ELISAs and Western blots. In Western blots, approximately 5-10% cross-reactivity with recombinant human MMP-1, -3, -10, -12, and -13 is observed. |
| Immunogen                   | Mouse myeloma cell line NS0-derived recombinant human Hemopexin<br>Thr24-His462<br>Accession # P02790                                                                               |
| Product Application Details |                                                                                                                                                                                     |
| Applications                | Western Blot, Immunohistochemistry                                                                                                                                                  |
| Recommended Dilutions       | Western Blot, Immunohistochemistry                                                                                                                                                  |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                              |
