| Species                 | Rat                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Specificity/Sensitivity | Detects rat CXCL1/GRO $\alpha$ /KC/CINC $\square$ 1 in direct ELISAs and Western blots. In Western blots, 100% cross-reactivity with recombinant human (rh) GRO $\alpha$ , rhGRO $\beta$ , rhGRO $\gamma$ , and recombinant mouse KC is observed. No cross-reactivity with recombinant rat (rr) CINC2a, rrCXCL3, rhCXCL5, 6, 7, 8, 9, 10, 11, 12 or 13, rmCXCL2, 6, 9, 10, 12, 13, or recombinant porcine CXCL8 is observed. |
| Immunogen               | <i>E. coli</i> -derived recombinant rat CXCL1/GRO $\alpha$ /KC/CINC $\square$ 1<br>Ala25-Lys96<br>Accession # P14095                                                                                                                                                                                                                                                                                                         |
| Notes                   | mFluor(TM) is a trademark of AAT Bioquest, Inc. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet.                                                                                                                                                                                        |

| Product Application Details |                                                                        |
|-----------------------------|------------------------------------------------------------------------|
| Applications                | Western Blot, Neutralization                                           |
| Recommended Dilutions       | Western Blot, Neutralization                                           |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined. |
