| Clonality                   | Monoclonal                                                                                                                                                                                 |
| Clone                       | 99211                                                                                                                                                                                      |
| Preservative                | 0.05% Sodium Azide                                                                                                                                                                         |
| Isotype                     | IgG1                                                                                                                                                                                       |
| Conjugate                   | PerCP                                                                                                                                                                                      |
| Purity                      | Protein A or G purified from ascites                                                                                                                                                       |
| Buffer                      | PBS                                                                                                                                                                                        |
| Product Description         |                                                                                                                                                                                            |
| Host                        | Mouse                                                                                                                                                                                      |
| Gene ID                     | 4486                                                                                                                                                                                       |
| Gene Symbol                 | MST1R                                                                                                                                                                                      |
| Species                     | Human                                                                                                                                                                                      |
| Specificity/Sensitivity     | Detects human MSP in direct ELISAs. In this format, this antibody shows less than 2% cross-reactivity with recombinant mouse (rm) MSP R. Recognizes an epitope found in the $\beta$ chain. |
| Immunogen                   | Mouse myeloma cell line NS0-derived recombinant human MSP R<br>Met1-Ser956<br>Accession # Q04912                                                                                           |
| Product Application Details |                                                                                                                                                                                            |
| Applications                | Blockade of Receptor-ligand Interaction                                                                                                                                                    |
| Recommended Dilutions       | Blockade of Receptor-ligand Interaction                                                                                                                                                    |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                     |
