## Kanadaptin Antibody (2G10) - Azide and BSA Free H00022950-M01

Unit Size: 0.1 mg

Aliquot and store at -20C or -80C. Avoid freeze-thaw cycles.

| Product Description         |                                                                                                                                                                                                                                    |
| Description                 | Novus Biologicals Mouse Kanadaptin Antibody (2G10) - Azide and BSA Free (H00022950-M01) is a monoclonal antibody validated for use in WB and ELISA. All Novus Biologicals antibodies are covered by our 100% guarantee.            |
| Host                        | Mouse                                                                                                                                                                                                                              |
| Gene ID                     | 22950                                                                                                                                                                                                                              |
| Gene Symbol                 | SLC4A1AP                                                                                                                                                                                                                           |
| Species                     | Human                                                                                                                                                                                                                              |
| Specificity/Sensitivity     | Reacts with solute carrier family 4 (anion exchanger), member 1, adaptor protein.                                                                                                                                                  |
| Immunogen                   | SLC4A1AP (NP_060628, 154 a.a. ~ 254 a.a) partial recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.<br>YQEPPWGGPATAPYSLETCLKGGTILGTRSLKGTSYCLFGRLSGCDVCLEHPSV<br>SRYHAVLQHRASGPDGECDSNGPGFYLYDLGSTHGTFLNKTRIPPTY |
| Notes                       | This product is produced by and distributed for Abnova, a company based in Taiwan.                                                                                                                                                 |
| Product Application Details |                                                                                                                                                                                                                                    |
| Applications                | Western Blot, ELISA, Sandwich ELISA                                                                                                                                                                                                |
| Recommended Dilutions       | Western Blot, ELISA, Sandwich ELISA                                                                                                                                                                                                |
| Application Notes           | This antibody is reactive against recombinant protein in western blot and ELISA.                                                                                                                                                   |

## Images

Western Blot: Kanadaptin Antibody (2G10) [H00022950-M01] - Analysis of SLC4A1AP expression in transfected 293T cell line by SLC4A1AP monoclonal antibody (M01), clone 2G10. Lane 1: SLC4A1AP transfected lysate (Predicted MW: 88.8 KDa). Lane 2: Non-transfected lysate.

Sandwich ELISA: Kanadaptin Antibody (2G10) [H00022950-M01] - Detection limit for recombinant GST tagged SLC4A1AP is 0.3 ng/ml as a capture antibody.
