| <b>Gene Symbol</b>             | FBXO31                                                                                                                                                                                                                          |
| <b>Species</b>                 | Human                                                                                                                                                                                                                           |
| <b>Specificity/Sensitivity</b> | Reacts with F-box protein 31.                                                                                                                                                                                                   |
| <b>Immunogen</b>               | FBXO31 (NP_079011.3, 269 a.a. ~ 367 a.a) partial recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.<br>GQGQPFVLPVGVSSRNEDYPRTCRCMFYGTGLIAGHGFTSPERTPGVFILFDE<br>DRFGFVWLELKSFSLSRVQATFRNADAPSPQAFDEMLKNIQSLTS |
| <b>Notes</b>                   | This product is produced by and distributed for Abnova, a company based in Taiwan.                                                                                                                                              |

**Product Application Details**

|                              |                                                                 |
|------------------------------|-----------------------------------------------------------------|
| <b>Applications</b>          | ELISA, Sandwich ELISA                                           |
| <b>Recommended Dilutions</b> | ELISA, Sandwich ELISA                                           |
| <b>Application Notes</b>     | This antibody is reactive against recombinant protein in ELISA. |

**Images**

Sandwich ELISA: FBXO31 Antibody (1C5) [H00079791-M01] - Detection limit for recombinant GST tagged FBXO31 is 0.1 ng/ml as a capture antibody.
