NB100-59824

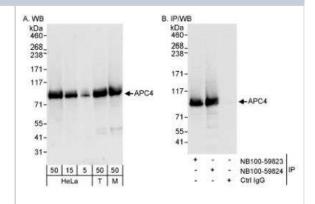

Apc4 Antibody

Antibody: Cited in 2 publications. All Novus Biologicals antibodies are covered our 100% guarantee. Host Rabbit Gene ID 29945 Gene Symbol ANAPC4 Species Human, Mouse Reactivity Notes Orangutan (100%). Immunogen The immunogen recognized by this antibody maps to a region between residue 758 and 808 of human anaphase-promoting complex subunit 4 using the numbering given in entry NP_037499.2 (GeneID 29945). Product Application Details	Apc4 Antibody	
Concentration Storage Store at 4C. Do not freeze. Clonality Polyclonal Preservative 0.09% Sodium Azide Isotype IgG Purity Immunogen affinity purified Buffer TBS and 0.1% BSA Product Description Novus Biologicals Knockout (KO) Validated Rabbit Apc4 Antibody (NB100-59824) is a polyclonal antibody validated for use in WB, ICC/IF and IP. Anti-Ap Antibody: Cited in 2 publications. All Novus Biologicals antibodies are covered our 100% guarantee. Host Rabbit Gene ID 29945 Gene Symbol ANAPC4 Species Human, Mouse Reactivity Notes Orangutan (100%). Immunogen The immunogen recognized by this antibody maps to a region between residue 758 and 808 of human anaphase-promoting complex subunit 4 using the numbering given in entry NP_037499.2 (GeneID 29945). Product Application Details Applications Western Blot, Immunocytochemistry/ Immunofluorescence, Immunoprecipitation Knockout Validated Recommended Dilutions Western Blot 1:2000-1:10000, Immunocytochemistry/ Immunofluorescence from a verified customer review., Immunoprecipitation 2-5 ug/mg lysate, Knockout Validated	Product Information

Validated for Immunocytochemistry/Immunofluorescence from a verified customer review., Immunoprecipitation 2-5 ug/mg lysate, Knockout Validated	Applications	Western Blot, Immunocytochemistry/ Immunofluorescence, Immunoprecipitation, Knockout Validated
	Recommended Dilutions	Validated for Immunocytochemistry/Immunofluorescence from a verified customer review., Immunoprecipitation 2-5 ug/mg lysate, Knockout Validated

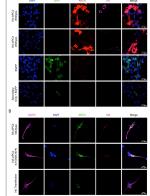

Images

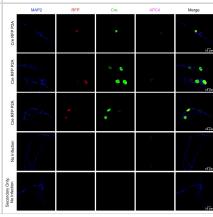

Western Blot: Apc4 Antibody [NB100-59824] - Detection of Human and Mouse APC4 on HeLa whole cell lysates using NB100-59824. APC4 was also immunoprecipitated by rabbit anti-APC4 antibody NB100-59823.

Immunocytochemistry/ Immunofluorescence: Rabbit Polyclonal Apc4 Antibody [NB100-59824] - Imaging overexpressed HA-APC4. Scale bars: 10 μ m. (A) HEK293 cells stained with DAPI (blue), GFP (green), HA (magenta), APC4 (red). (B) Wildtype primary mouse hippocampal cultures stained with DAPI (blue), MAP2 (magenta), HA (red), APC4 (green). 1:500 with 36-40hr primary incubation (24 or less does not work for both HEK293 and neurons). The signal that is there is absent in knockout cells. Image from a verified customer review.

Immunocytochemistry/ Immunofluorescence: Rabbit Polyclonal Apc4 Antibody [NB100-59824] - Primary hippocampal neuron cultures were generated from tm1c/tm1c conditional ANAPC4 knockout mice and infected at DIV1 with a lentivirus expressing Cre RFP P2A or a No Infection control. Coverslips were fixed at DIV11 and stained with antibodies against MAP2 (blue), Cre (green), and APC4 (magenta). The RFP expression was also detected (red). The settings on the confocal microscope were determined by using a non-infected control sample that was not stained with the APC4 primary antibody (Secondary Only). Scale bars representing 10 um are displayed on the merged images (Merge). Image from a verified customer review.
