Lysozyme Antibody (BGN/0696/5B1) [Alexa Fluor® 647]

defence. It functions by hydrolyzing 1,2-beta linkages between N-acetylmuram acid and N-acetyl-D-glucosamine residues such as those found in the walls of various Gram-positive bacteria. Immunogen Native, from urine Alexa Fluor (R) products are provided under an intellectual property license from Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and components of the product only in research conducted by the buyer (whether the buyer is a academic or for-profit entity). The sale of this product is expressly conditioned the buyer not using the product or its components, or any materials made usin the product or its components, in any activity to generate revenue, which may include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For information purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbad, CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The	Lyoozymo / mabody (Bon vooo)	2.7 [. 1107.01 . 100.01 . 1.]
Please see the vial label for concentration. If unlisted please contact technical services.	Product Information
