

Product Datasheet

Complement Factor B Antibody (014III-33.2.4.3) - (Ba fragment) - BSA Free NB100-64343

Unit Size: 0.05 mg

Store at 4C short term. Aliquot and store at -20C long term. Avoid freeze-thaw cycles.

NB100-64343

Complement Factor B Antibody (014III-33.2.4.3) - (Ba fragment) - BSA Free

Product Information	
Unit Size	0.05 mg
Concentration	1 mg/ml
Storage	Store at 4C short term. Aliquot and store at -20C long term. Avoid freeze-thaw cycles.
Clonality	Monoclonal
Clone	014III-33.2.4.3
Preservative	0.1% Sodium Azide
Isotype	IgG1
Purity	Protein A purified
Buffer	Borate buffered saline
Product Description	
Description	Novus Biologicals Mouse Complement Factor B Antibody (014III-33.2.4.3) - (Ba fragment) - BSA Free (NB100-64343) is a monoclonal antibody validated for use in IHC, WB, ELISA and Flow. All Novus Biologicals antibodies are covered by our 100% guarantee.
Host	Mouse
Gene ID	629
Gene Symbol	CFB
Species	Human
Specificity/Sensitivity	NB100-64343 recognizes the 30kDa Ba fragment of 90kDa human complement factor B, present in blood serum. C3b associates with complement factor B, inducing conformational change. This enables complement factor D to cleave the N-terminal of complement factor B (the Ba subunit), leaving the 63 kDa Bb subunit associated with C3b, forming C3 convertase. Subunit Ba inhibits lymphocyte proliferation. Conversely, subunit Bb is involved in the proliferation of preactivated B lymphocytes. NB100-64343 inhibits the function of factor B and binds both nascent factor B and the Ba cleavage product. Removal of Sodium Azide is recommended prior to use in functional assays.
Immunogen	Purified human complement factor b
Product Application Details	
Applications	Western Blot, ELISA, Flow Cytometry, Functional, Immunohistochemistry, Immunohistochemistry-Frozen
Recommended Dilutions	Western Blot 1:100-1:2000, Flow Cytometry 1:10-1:1000, ELISA 1:100-1:2000, Immunohistochemistry 1:10-1:500, Immunohistochemistry-Frozen 1:10-1:500, Functional
Application Notes	Cone 014III33.2.4.3 binds both the Ba fragment and the whole protein so is not suitable for all ELISA applications.
