NB100-64360PECY7

CD19 Antibody (Bu12) [PE/Cy7]

0.1 ml	
Please see the vial label for concentration. If unlisted please contact technical services.	
Store at 4C in the dark. Do not freeze.	
Monoclonal	
Bu12	
0.05% Sodium Azide	
IgG1	
PE/Cy7	
Protein G purified	
PBS	
Product Description	
Mouse	
930	
CD19	
Human	
NB100-64360 recognizes human CD19, a 95kD cell surface glycoprotein, which is expressed on cells of the B cell lineage and follicular dendritic cells but absent on plasma cells. CD19 is an important signal transduction molecule which is involved in the regulation of B lymphocyte development, activation and differentiation.	
Human EB-4 Burkitt lymphoma cell line	
Product Application Details	
Flow Cytometry, Immunoprecipitation	
Flow Cytometry, Immunoprecipitation	
Optimal dilution of this antibody should be experimentally determined. For optimal results using our Tandem dyes, please avoid prolonged exposure to light or extreme temperature fluctuations. These can lead to irreversible degradation or decoupling. When staining intracellular targets, specific attention to the fixation and permeabilization steps in your flow protocol may be required. Please contact our technical support team at technical@novusbio.com if you have any questions.
