Cholera Toxin Beta Antibody (2/63) [Janelia Fluor® 549]

| Product Information |                                                                                             |
|---------------------|---------------------------------------------------------------------------------------------|
| Unit Size           | 0.1 ml                                                                                      |
| Concentration       | Please see the vial label for concentration. If unlisted please contact technical services. |
| Storage             | Store at 4C in the dark.                                                                    |
| Clonality           | Monoclonal                                                                                  |
| Clone               | 2/63                                                                                        |
| Preservative        | 0.05% Sodium Azide                                                                          |
| Isotype             | IgG1                                                                                        |
| Conjugate           | Janelia Fluor 549                                                                           |
| Purity              | Protein G purified                                                                          |
| Buffer              | 50mM Sodium Borate                                                                          |

| Product Description     |                                                                                                                                                                                                                     |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                    | Mouse                                                                                                                                                                                                               |
| Species                 | Bacteria                                                                                                                                                                                                            |
| Specificity/Sensitivity | NB100-64675 detects the labile enterotoxin normally associated with V. cholera and reacts with an epitope on the B chain. No reactivity was observed with other species tested including various E. coli serotypes. |
| Immunogen               | Vibrio cholerae                                                                                                                                                                                                     |
| Notes                   | Sold under license from the Howard Hughes Medical Institute, Janelia Research Campus.                                                                                                                               |

| Product Application Details |                                                                        |
|-----------------------------|------------------------------------------------------------------------|
| Applications                | ELISA, Immunohistochemistry, Immunohistochemistry-Frozen               |
| Recommended Dilutions       | ELISA, Immunohistochemistry, Immunohistochemistry-Frozen               |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined. |
