HLA G Antibody (MEM-G/1) [Alexa Fluor® 594]

Unit Size 0.1 ml Concentration Please see the vial label for concentration. If unlisted please contact techr services. Storage Store at 4C in the dark. Clonality Monoclonal Clone MEM-G/1 Preservative 0.05% Sodium Azide Isotype IgG1 Conjugate Alexa Fluor 594 Purity Protein A purified Buffer 50mM Sodium Borate Product Description Mouse Gene ID 3135 Gene Symbol HLA-G Species Human Reactivity Notes Mouse reactivity reported in scientific literature (PMID: 27849611). Specificity/Sensitivity The antibody MEM-G/1 reacts with denaturated HLA-G heavy chain. HLA-beings to the MHC Class I molecules (MHC Class Ib; nonclassical) and i expressed on the surface of trophoblast cells. Immunogen HLA-A2.1/human beta2-microglobulin double transgenic mice were immur with murine L cells transferable right to use the purchase of this product and compor of the product only in research conducted by the buyer (whether the buyer academic or for-profit entity). The sale of this product is expressly conditio the buyer not using the product or its components, or any materials made the product only in research conducted by the buyer (whether the buyer academic or for-pro	roduct Information

Product Application Details

Applications	Western Blot, Immunocytochemistry/ Immunofluorescence, Immunohistochemistry, Immunohistochemistry-Frozen, Immunohistochemistry- Paraffin
Recommended Dilutions	Western Blot, Immunohistochemistry, Immunocytochemistry/ Immunofluorescence, Immunohistochemistry-Paraffin, Immunohistochemistry- Frozen
Application Notes	Optimal dilution of this antibody should be experimentally determined.
