| <b>Product Description</b>         |                                                                                                                                                                                                                                                                                                      |
| <b>Host</b>                        | Goat                                                                                                                                                                                                                                                                                                 |
| <b>Species</b>                     | Feline                                                                                                                                                                                                                                                                                               |
| <b>Specificity/Sensitivity</b>     | By immunoelectrophoresis and ELISA this Goat anti-Feline IgG (H+L) Secondary Antibody [HRP] reacts specifically with cat IgG and with light chains common to other cat immunoglobulins. No was detected against non-immunoglobulin serum proteins. This may cross react with IgG from other species. |
| <b>Immunogen</b>                   | This Goat anti-Feline IgG (H+L) Secondary Antibody [HRP] was developed against feline IgG-heavy and light chain.                                                                                                                                                                                     |
| <b>Product Application Details</b> |                                                                                                                                                                                                                                                                                                      |
| <b>Applications</b>                | Western Blot, ELISA, Immunocytochemistry/ Immunofluorescence, Immunohistochemistry, Immunohistochemistry-Paraffin                                                                                                                                                                                    |
| <b>Recommended Dilutions</b>       | Western Blot 1:5000 - 1:50000, ELISA 1:10000 - 1:100000, Immunohistochemistry 1:200 - 1:5000, Immunocytochemistry/ Immunofluorescence 1:200 - 1:5000, Immunohistochemistry-Paraffin                                                                                                                  |
