Human Skin Whole Tissue Lysate (Adult Whole Liver Cirrhosis)

| Product Information |                                                                                                                                     |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Unit Size           | 1 mg                                                                                                                                |
| Concentration       | 5.0 mg/ml                                                                                                                           |
| Storage             | Store at -80C. Avoid freeze-thaw cycles.                                                                                            |
| Buffer              | HEPES (pH 7.9), MgCl <sub>2</sub> , KCl, EDTA, Sucrose, Glycerol, Sodium deoxycholate, NP-40, and a cocktail of protease inhibitors |

| Product Description         |                                                                                           |
|-----------------------------|-------------------------------------------------------------------------------------------|
| Description                 | We recommend adding 1 x sample buffer with 5% BME (or other reducing agent) prior to use. |
| Species                     | Human                                                                                     |
| Specificity/Sensitivity     | Total Protein - Liver Cirrhosis: Skin                                                     |
| Lysate Type                 | Tissue                                                                                    |
| Lysate Tissue               | Skin                                                                                      |
| Lysate Tissue Condition     | Liver Cirrhosis                                                                           |
| Lysate Life Stage           | Adult                                                                                     |
| Lysate Protein State        | Native                                                                                    |
| Lysate Subcellular Fraction | Whole                                                                                     |

| Product Application Details |                                                                                                                                          |
|-----------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Applications                | Western Blot                                                                                                                             |
| Recommended Dilutions       | Western Blot                                                                                                                             |
| Application Notes           | Western Blot, Immunoprecipitation, Electrophoresis, Enzymatic activity analysis, Protein-protein interaction, Tissue specific expression |
