ERK2 Antibody [Alexa Fluor® 700]

Concentration Please see the vial label for concentration. If unlisted please contact technical services. Storage Store at 4C in the dark. Clonality Polyclonal Preservative 0.05% Sodium Azide Isotype IgG Conjugate Alexa Fluor 700 Immunogen affinity purified Buffer 50mM Sodium Borate Product Description Host Rabbit Gene ID 5594 Gene Symbol MAPK1 Species Human, Mouse The immunogen recognized by this antibody maps to a region between residue 310 and 360 of human extracellular signal-regulated kinase-2 (mitogen-activated protein kinase 1) using the numbering given in entry NP_002736.3 (GeneID 5594). Notes Alexa Fluor (R) products are provided under an intellectual property license from Life Technologies Corporation. The purchase of this product and components of the product only in research conducted by the buyer (whether the buyer its an academic or for-profit entity). The sale of this product is expressly conditioned on the buyer not using the product or its components, or any materials made using the product or its components, in any activity to generate revenue, which may include, but is not limited to use of the product or graphytactic proposes, or (iv) for resale, regardless of whether they are resold for use in research. Ero information on purchasing a license to this product for pupposes other has as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbad, CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet.	Product Information
