This TXNIP antibody generated a diffused cytoplasmic signal in the cells of various tubules and glomeruli.

Immunohistochemistry-Paraffin: TXNIP Antibody (JY2) [NBP1-54578] - Formalin fixed and paraffin embedded tissue section of mouse kidney using TXNIP antibody (clone JY2) at 1:100 dilution. The signal was developed using HRP-conjugated secondary antibody and DAB reagent which followed counterstaining of the cell nuclei with hematoxylin. This TXNIP antibody generated a diffused cytoplasmic signal in the cells of various tubules with negligible staining in glomeruli.
