| Description                 | Chicken products cannot be exported to Canada                                                                                                                                                                                                 |
| Host                        | Chicken                                                                                                                                                                                                                                       |
| Species                     | Rat                                                                                                                                                                                                                                           |
| Specificity/Sensitivity     | Based on IEP, this Chicken anti-Rat IgG (H+L) Secondary Antibody reacts with heavy gamma chains on rat IgG and light chains on all rat immunoglobulins.                                                                                       |
| Immunogen                   | This Chicken anti-Rat IgG (H+L) Secondary Antibody was developed against purified rat IgG (H&L).                                                                                                                                              |
| Notes                       | Chicken products cannot be exported to Canada.<br><br>DyLight (R) is a trademark of Thermo Fisher Scientific Inc. and its subsidiaries.                                                                                                       |
| Product Application Details |                                                                                                                                                                                                                                               |
| Applications                | Western Blot, Chemiluminescence Immunoassay, ELISA, Flow Cytometry, Immunoassay, Immunocytochemistry/ Immunofluorescence, Immunohistochemistry, Immunomicroscopy                                                                              |
| Recommended Dilutions       | Western Blot 1:100-1:2000, Flow Cytometry 1:10-1:1000, ELISA 1:100-1:2000, Immunohistochemistry 1:10 - 1:500, Immunocytochemistry/ Immunofluorescence 1:10 - 1:500, Immunoassay, Immunomicroscopy 1:10 - 1:500, Chemiluminescence Immunoassay |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                        |
