Translin Antibody [Alexa Fluor® 350]

Clonality Polyclonal Preservative 0.05% Sodium Azide Isotype IgG Conjugate Alexa Fluor 350 Purity Peptide affinity purified Buffer 50mM Sodium Borate Product Description Host Rabbit Gene ID 7247 Gene Symbol TSN Species Human, Mouse, Rat Reactivity Notes 0 Specificity/Sensitivity At least two isoforms of Translin are known to exist; this antibody will detect both. Immunogen Antibody was raised against a 20 amino acid synthetic peptide near the carboxy terminus of human Translin. The immunogen is located within the last 50 amino acids of Translin. Amino Acid Squence: NLKNDSLRKRYDGLKYDVKK Notes Alexa Fluor (R) products are provided under an intellectual property license from Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable ingit to use the purchased procult and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned on the buyer not using the product or its components, or any materials made using the product or its components, in any activity to generate revenue, which may include, but is not limited to use of the product or Incomponents: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes of (iv) for resale, regardless of whether they are resold for use in research. For information on purchasing a license to this product. The roindomation on purchasing a license to this product. The roindomation on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet.	Product Information
