| Clonality                   | Polyclonal                                                                                                                                                                                         |
| Preservative                | 0.05% Sodium Azide                                                                                                                                                                                 |
| Isotype                     | IgG                                                                                                                                                                                                |
| Conjugate                   | PE                                                                                                                                                                                                 |
| Purity                      | Peptide affinity purified                                                                                                                                                                          |
| Buffer                      | PBS                                                                                                                                                                                                |
| Product Description         |                                                                                                                                                                                                    |
| Host                        | Rabbit                                                                                                                                                                                             |
| Gene ID                     | 9219                                                                                                                                                                                               |
| Gene Symbol                 | MTA2                                                                                                                                                                                               |
| Species                     | Human, Mouse, Rat                                                                                                                                                                                  |
| Specificity/Sensitivity     | PID antibody is predicted to not cross-react with MTA2                                                                                                                                             |
| Immunogen                   | Antibody was raised against a 17 amino acid peptide near the carboxy terminus of human PID. The immunogen is located within the last 50 amino acids of PID. Amino Acid Sequence: PAPSHPASTNEPIVLED |
| Product Application Details |                                                                                                                                                                                                    |
| Applications                | Western Blot, Immunohistochemistry-Paraffin, ELISA, Immunocytochemistry/Immunofluorescence, Immunohistochemistry                                                                                   |
| Recommended Dilutions       | Western Blot, ELISA, Immunohistochemistry, Immunocytochemistry/Immunofluorescence, Immunohistochemistry-Paraffin                                                                                   |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                             |
