| <b>Gene ID</b>                     | 4303                                                                                                                                                                                                      |
| <b>Gene Symbol</b>                 | FOXO4                                                                                                                                                                                                     |
| <b>Species</b>                     | Human, Mouse, Rat                                                                                                                                                                                         |
| <b>Immunogen</b>                   | Antibody was raised against a 15 amino acid synthetic peptide near the amino terminus of human FOXO4. The immunogen is located within amino acids 50 - 100 of FOXO4. Amino Acid Sequence: LPSRLPEPAGGPQPG |
| <b>Product Application Details</b> |                                                                                                                                                                                                           |
| <b>Applications</b>                | Western Blot, ELISA, Immunocytochemistry/ Immunofluorescence                                                                                                                                              |
| <b>Recommended Dilutions</b>       | Western Blot, ELISA, Immunocytochemistry/ Immunofluorescence                                                                                                                                              |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                    |
