**NBP1-77336**

METTL7A Antibody - BSA Free

| Product Information |                           |
|---------------------|---------------------------|
| Unit Size           | 0.1 mg                    |
| Concentration       | 1 mg/ml                   |
| Storage             | Store at 4C.              |
| Clonality           | Polyclonal                |
| Preservative        | 0.02% Sodium Azide        |
| Isotype             | IgG                       |
| Purity              | Peptide affinity purified |
| Buffer              | PBS                       |

| Product Description     |                                                                                                                                                                                                           |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description             | Novus Biologicals Rabbit METTL7A Antibody - BSA Free (NBP1-77336) is a polyclonal antibody validated for use in WB, ELISA and ICC/IF. All Novus Biologicals antibodies are covered by our 100% guarantee. |
| Host                    | Rabbit                                                                                                                                                                                                    |
| Gene ID                 | 25840                                                                                                                                                                                                     |
| Gene Symbol             | TMT1A                                                                                                                                                                                                     |
| Species                 | Human, Mouse                                                                                                                                                                                              |
| Specificity/Sensitivity | At least two isoforms of MettL7A are known to exist. This antibody is predicted to not cross-react with MettL7B.                                                                                          |
| Immunogen               | Antibody was raised against a 13 amino acid synthetic peptide near the center of human MettL7A. The immunogen is located within amino acids 130 - 180 of MettL7A. Amino Acid Squence: SVKNQERILREV        |

| Product Application Details |                                                                                           |
|-----------------------------|-------------------------------------------------------------------------------------------|
| Applications                | Western Blot, ELISA, Immunocytochemistry/ Immunofluorescence                              |
| Recommended Dilutions       | Western Blot 2 ug/ml, ELISA 1:100-1:2000, Immunocytochemistry/ Immunofluorescence 2 ug/ml |

## Images

Western Blot: METTL7A Antibody [NBP1-77336] - MCF cell lysate with MettL7A antibody at 2 ug/mL.

Immunocytochemistry/ Immunofluorescence: METTL7A Antibody - BSA Free [NBP1-77336] - Immunocytochemistry of MettL7a in MCF7 cells with MettL7a antibody at 2 ug/mL.
