CRISP-2 Antibody - BSA Free

| Product Information |                                                                                                                  |
|---------------------|------------------------------------------------------------------------------------------------------------------|
| Unit Size           | 0.1 ml                                                                                                           |
| Concentration       | Concentrations vary lot to lot. See vial label for concentration. If unlisted please contact technical services. |
| Storage             | Store at 4C short term. Aliquot and store at -20C long term. Avoid freeze-thaw cycles.                           |
| Clonality           | Polyclonal                                                                                                       |
| Preservative        | 0.02% Sodium Azide                                                                                               |
| Isotype             | IgG                                                                                                              |
| Purity              | Immunogen affinity purified                                                                                      |
| Buffer              | PBS (pH 7.2) and 40% Glycerol                                                                                    |

| Product Description |                                                                                                                                                                                          |
|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description         | Novus Biologicals Rabbit CRISP-2 Antibody - BSA Free (NBP1-85452) is a polyclonal antibody validated for use in IHC. All Novus Biologicals antibodies are covered by our 100% guarantee. |
| Host                | Rabbit                                                                                                                                                                                   |
| Gene ID             | 7180                                                                                                                                                                                     |
| Gene Symbol         | CRISP2                                                                                                                                                                                   |
| Species             | Human                                                                                                                                                                                    |
| Immunogen           | This antibody was developed against Recombinant Protein corresponding to amino acids:<br>GCPDDCDKGLCTNSCQYQDLLSNCDLKNNTAGCEHELLKEKCKATCLCEN                                              |

| Product Application Details |                                                                               |
|-----------------------------|-------------------------------------------------------------------------------|
| Applications                | Immunohistochemistry-Paraffin, Immunohistochemistry                           |
| Recommended Dilutions       | Immunohistochemistry 1:50 - 1:200, Immunohistochemistry-Paraffin 1:50 - 1:200 |
| Application Notes           | For IHC-Paraffin, HIER pH 6 retrieval is recommended.                         |

## Images

Immunohistochemistry-Paraffin: CRISP-2 Antibody [NBP1-85452] - Staining in human testis and endometrium tissues using anti-CRISP2 antibody. Corresponding CRISP2 RNA-seq data are presented for the same tissues.

Immunohistochemistry-Paraffin: CRISP-2 Antibody [NBP1-85452] - Staining of human endometrium shows low expression as expected.

Immunohistochemistry-Paraffin: CRISP-2 Antibody [NBP1-85452] - Staining of human testis shows high expression.
