#### NBP1-92377PEP

Semenogelin II Recombinant Protein Antigen

Product Information       Unit Size       0.1 ml         Concentration       Please see the vial label for concentration. If unlisted please contact technical services.         Storage       Store at -20C. Avoid freeze-thaw cycles.         Preservative       No Preservative         Purity       >80% by SDS-PAGE and Coomassie blue staining         Buffer       PBS and 1M Urea, pH 7.4.         Target Molecular Weight       22 kDa         Product Description       A recombinant protein antigen with a N-terminal His6-ABP tag corresponding to human SEMG2.         Source: E. coli       Amino Acid Sequence: GRYKQESSESHNIVITEHEVAQDDHLTQQYNEDRNP         Fusion Tag: N-terminal His6ABP (ABP = Albumin Binding Protein derived from Streptococcal Protein G)         This product is intended to be used as a blocking antigen for antibody competition assays. Any other use of this antigen is done at the risk of the user. The use of this product for commercial production is strictly prohibited. Please contact technical support if you have any questions.         Gene ID       6407         Gene Symbol       SEMG2         Species       Human         Product Application Details       Antibody Competition 10 - 100 molar excess         Application Notes       Antibody Competition 10 - 100 molar excess         Application Notes       For current to information, including availability, please contact our technical support team cirk and 0.5 mg/m.		
Concentration         Please see the vial label for concentration. If unlisted please contact technical services.           Storage         Store at -20C. Avoid freeze-thaw cycles.           Preservative         No Preservative           Purity         >80% by SDS-PAGE and Coomassie blue staining           Buffer         PBS and 1M Urea, pH 7.4.           Target Molecular Weight         22 kDa           Product Description         A recombinant protein antigen with a N-terminal His6-ABP tag corresponding to human SEMG2.           Source: <i>E</i> . coll           Amino Acid Sequence:         GRYKQESSESHNIV/TEHEVAQDDHLTQQYNEDRNP           Fusion Tag:         N-terminal His6ABP (ABP = Albumin Binding Protein derived from Streptococcal Protein G)           This product is intended to be used as a blocking antigen for antibody competition assays. Any other use of this antigen is done at the risk of the user. The use of this product for commercial production is strictly prohibited. Please contact technical support if you have any questions.           Species         Human           Product Application Details         Antibody Competition 10 - 100 molar excess           Application Notes         This recombinant antigen is only intended to be used as a blocking agent to confirm antibody specificity with the corresponding antibody, catalog number NBP1-92377.           It is purified by IMAC chromatography, and the expected concentration is greater than 0.5 mg/ml.	Product Information
