Product Information

Vimentin Antibody (RV202) [Alexa Fluor® 532]

Unit Size Concentration Please see the vial label for concentration. If unlisted please contact technical services. Storage Store at 4C in the dark. Clonality Monoclonal Clone RV202 Preservative 0.05% Sodium Azide Isotype IgG1 Conjugate Alexa Fluor 532 Purity Protein A or G purified Buffer 50mM Sodium Borate Target Molecular Weight 53.6 kDa Product Description Host Mouse Gene ID 7431 Gene Symbol VIM Species Human, Mouse, Rat, Porcine, Canine, Chicken, Goat, Hamster, Monkey, Xenopus, Zebrafish This antibody reacts exclusively with vimentin, which is expressed in mesenchymal cells and mesenchymal derived tumors e.g. lymphoma, sarcoma and melanoma. Immunogen This antibody is a mouse monoclonal IgG1 antibody derived by fusion of SP2/0-Ag14 mouse myeloma cells with spleen cells from a BALB/c mouse immunized with a cytoskeletal vimentin extract of calf lens. Notes Alexa Fluor (R) products are provided under an intellectual property license from Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product cand components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressely conditioned on the buyer not using the product or its components; (i) in manufacturing; (ii) to provide a service, information, or data in return for resele, regardless of whether they are resold for use in research, or information on purchasing a license to this product or use in research, or information on purchasing a license to this product or purposes civer than as described above, contact Life Technologies Corporation, 5791 V an Alleh Vay, Carlsbad, CA 92008 USA or outlicensing ® lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet.
