NBP2-22450**Adiponectin/Acrp30 Antibody (19F1)**

Product Information	
Unit Size	100 ug
Concentration	1 mg/ml
Storage	Store at -20C. Avoid freeze-thaw cycles.
Clonality	Monoclonal
Clone	19F1
Preservative	0.05% Sodium Azide
Isotype	IgG
Purity	Protein G purified
Buffer	PBS with 1 mg/ml BSA

Product Description	
Host	Mouse
Gene ID	9370
Gene Symbol	ADIPOQ
Species	Human, Mouse, Rat, Rabbit
Reactivity Notes	Rat reactivity reported in scientific literature (PMID: 30357746). Please note that this antibody is reactive to Mouse and derived from the same host, Mouse. Additional Mouse on Mouse blocking steps may be required for IHC and ICC experiments. Please contact Technical Support for more information.
Immunogen	Full length, recombinant, human adiponectin.

Product Application Details	
Applications	Western Blot, ELISA, Flow Cytometry, Immunocytochemistry/ Immunofluorescence, Immunohistochemistry, Immunohistochemistry-Paraffin
Recommended Dilutions	Western Blot 1 ug/ml, Flow Cytometry 1:10-1:1000, ELISA 1:100 - 1:2000, Immunohistochemistry 1:20 - 100, Immunocytochemistry/ Immunofluorescence 2 - 4 ug/ml, Immunohistochemistry-Paraffin 1:10 - 1:500

Images

Western Blot: Adiponectin/Acrp30 Antibody (19F1) [NBP2-22450] - Analysis of 8.4ug of rabbit subcutaneous white adipose tissue (scWAT), gonadal white adipose tissue (gWAT), perirenal white adipose tissue (pWAT), tibia marrow adipose tissue (tibMAT), tibia red marrow (tibRM), and 3T3-L1 positive control adipocyte lysates per well. Data courtesy of the Innovators Program.

Western Blot: Adiponectin/Acrp30 Antibody (19F1) [NBP2-22450] - Effect of whey peptides on 3T3-L1 adipocyte differentiation. 3T3-L1 preadipocytes were differentiated in the presence of 2.5 mg/mL WPI (whey protein isolate), WPH (whey peptide hydrolysate), BPI (BSA protein isolate) or BPH (BSA peptide hydrolysate). Immunoblotting and densitometric analysis of (A,D) adiponectin (n = 6). mRNA levels of (F) adiponectin (n = 8) were determined. * p < 0.05, **** p < 0.0001 vs. protein isolate controls. PS, protein stain. Image collected and cropped by CiteAb from the following publication (<https://pubmed.ncbi.nlm.nih.gov/32041341>) licensed under a CC-BY license.

Immunocytochemistry/Immunofluorescence: Adiponectin/Acrp30 Antibody (19F1) [NBP2-22450] - Analysis of Adiponectin was performed using 10% confluent 3T3-L1 cells differentiated with Adipogenesis supplement for 5 days.

Immunohistochemistry-Paraffin: Adiponectin/Acrp30 Antibody (19F1) [NBP2-22450] - Analysis was performed on biopsies of deparaffinized Human skin tissue.

Western Blot: Adiponectin/Acrp30 Antibody (19F1) [NBP2-22450] - Analysis was performed using 10 ul of conditioned media of Hep G2 cell line (lane 1).

Immunohistochemistry: Adiponectin/Acrp30 Antibody (19F1) [NBP2-22450] - Biopsies of deparaffinized Human skin tissue.

Immunocytochemistry/Immunofluorescence: Mouse Monoclonal Adiponectin/Acrp30 Antibody (19F1) [NBP2-22450] - Adipocytes isolated from the pelvic area of the male mouse. Image from a verified customer review.
