Product Description		
Description A recombinant protein antigen with a N-terminal His6-ABP tag correshuman NOP56. Source: E. coli Source: E. coli Amino Acid Sequence: EDPSISFSKPKKKKSFSKEELMSSDLEET Fusion Tag: N-terminal His6ABP (ABP = Albumin Binding Protein of Streptococcal Protein G) This product is intended to be used as a blocking antigen for a competition assays. Any other use of this antigen is done at thuser. The use of this product for commercial production is striprohibited. Please contact technical support if you have any quincipal descent and the second streptore of the support if you have any quincipal descent and the second streptore of the support if you have any quincipal descent actions as a support if you have any quincipal descent actions are contact technical support if you have any quincipal descent actions are contact technical support if you have any quincipal descent actions are contact technical support if you have any quincipal descent actions are contact technical support if you have any quincipal descent actions are contact technical support if you have any quincipal descent actions are contact technical support if you have any quincipal descent actions are contact technical support if you have any quincipal descent actions are contact technical support if you have any quincipal descent actions are contact technical support if you have any quincipal descent actions are contact technical support if you have any quincipal descent actions are contact technical support if you have any quincipal descent actions are contact technical support if you have any quincipal descent actions are contact technical support if you have any quincipal descent actions are contact technical support if you have any quincipal descent actions are contact technical support if you have any quincipal descent action descent actions are contactindicated actions		
Gene ID 10528		
Gene Symbol NOP56		
Species Human		
Product Application Details		
Applications Antibody Competition		
Recommended Dilutions Antibody Competition 10-100 molar excess		
Application NotesThis recombinant antigen is only intended to be used as a blocking confirm antibody specificity with the corresponding antibody, catalog NBP2-36778.It is purified by IMAC chromatography, and the expected concentration than 0.5 mg/ml.		
For current lot information, including availability, please contact our support team click <u>nb-technical@bio-techne.com</u> For further blocking tide related information and a protocol, click <u>her</u>
