| <b>Gene Symbol</b>                 | B303_sMgp1                                                                                                                                                                                                                                       |
| <b>Species</b>                     | Virus                                                                                                                                                                                                                                            |
| <b>Specificity/Sensitivity</b>     | SFTS Virus HB29 Membrane Glycoprotein antibody is specific to the SFTS Virus HB29.                                                                                                                                                               |
| <b>Immunogen</b>                   | Antibody was raised against an 18 amino acid synthetic peptide near the center of human SFTS Virus HB29 Membrane Glycoprotein. The immunogen is located within amino acids 510 - 560 of SFTS Virus HB29. Amino Acid Sequence: HEEIGENGEGNQDDVRIE |
| <b>Product Application Details</b> |                                                                                                                                                                                                                                                  |
| <b>Applications</b>                | ELISA                                                                                                                                                                                                                                            |
| <b>Recommended Dilutions</b>       | ELISA                                                                                                                                                                                                                                            |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                           |
