#### NBP2-46795PEP

CaM Kinase II alpha Recombinant Protein Antigen

Unit Size       100 ul         Concentration       Please see the vial label for concentration. If unlisted please contact technical services.         Storage       Store at -20C. Avoid freeze-thaw cycles.         Preservative       No Preservative         Purity       >80% by SDS-PAGE and Coomassie blue staining         Buffer       PBS and 1M Urea, pH 7.4.         Target Molecular Weight       21 kDa         Product Description       A recombinant protein antigen with a N-terminal His6-ABP tag corresponding to human CAMK2A.         Source: E. coli       Amino Acid Sequence: ELFEDIVAREYYSEADASHCIQQILE         Fusion Tag: N-terminal His6ABP (ABP = Albumin Binding Protein derived from Streptococcal Protein G)         This product is intended to be used as a blocking antigen for antibody competition assays. Any other use of this antigen is done at the risk of the user. The use of this product for commercial production is strictly prohibited. Please contact technical support if you have any questions.         Gene ID       815         Gene Symbol       CAMK2A         Species       Human         Product Application Details       Antibody Competition Access         Antibody Competition 10-100 molar excess       Antibody Competition 10-100 molar excess
