#### NBP2-46796PEP

CaM Kinase II alpha Recombinant Protein Antigen

Product Information         Unit Size       100 ul         Concentration       Please see the vial label for concentration. If unlisted please contact technical services.         Storage       Store at -20C. Avoid freeze-thaw cycles.         Preservative       No Preservative         Purity       >80% by SDS-PAGE and Coomassie blue staining         Buffer       PBS and 1M Urea, pH 7.4.         Target Molecular Weight       21 kDa         Product Description       A recombinant protein antigen with a N-terminal His6-ABP tag corresponding to human CAMK2A.         Source: E. coli       Amino Acid Sequence: LYQQIKAGAYDFPSPEWDTVTPEAKDL         Fusion Tag: N-terminal His6ABP (ABP = Albumin Binding Protein derived from Streptococcal Protein G)         This product for commercial production is strictly prohibited. Please contact technical support if you have any questions.         Gene ID       815         Gene Symbol       CAMK2A         Species       Human         Product Application Details       Antibody Competition         Applications       Antibody Competition         Recommended Dilutions       Antibody Competition         Recommended Dilutions       Antibody Competition         Application Notes       This product chromatign big in big in the expected concentration is greater than 0.5 mg/ml.         For current lot info		
Concentration         Please see the vial label for concentration. If unlisted please contact technical services.           Storage         Store at -20C. Avoid freeze-thaw cycles.
