CD11c Antibody (ITGAX/1243) [Alexa Fluor® 488]

Unit Size	CDTTC Antibody (TTGAX/1243) [A	CDTTC Antibody (TTGAX/1243) [Alexa Fluot® 400]	
Concentration Please see the vial label for concentration. If unlisted please contact technical services. Storage Store at 4C in the dark. Clonality Monoclonal Clone ITGAX/1243 Preservative 0.05% Sodium Azide Isotype IgG2b Kappa Conjugate Alexa Fluor 488 Purity Protein A or G purified Buffer 50mM Sodium Borate Product Description Host Mouse Gene ID 3687 Gene Symbol ITGAX Species Human Marker Dendritic Cell Marker Specificity/Sensitivity Recognizes a protein of 145kDa, identified as CD11c. CD11c (ITGAX), a member of the leukocyte adhesion molecule family, which includes CD11a (LFA-1), CD11b (MAC-1) and CD11d (ITGAD), but has a unique alpha chain. CD11c has been shown to play a role in phagocytosis, cell migration, and cytokine production by annocytes/macrophages as well as induction of T-cell proliferation by Langerhans cells. CD11c is expressed prominently on the plasma membranes of monocytes, tissue macrophages, NK cells, and most dendritic cells (DCs). A lower level of expression is also observed on neutrophils as a result of its high level of expression is also observed on neutrophils as a result of its high level of expression is also observed on neutrophils as a result of its high level of expression in most DCs. An antibody to CD11c may aid in identification of lesions with histiccytic origin. It may also been used as a marker for hairy cell leukemia in paraffin-embedded tissues.	Product Information

Notes

Alexa Fluor (R) products are provided under an intellectual property license from Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned on the buyer not using the product or its components, or any materials made using the product or its components, in any activity to generate revenue, which may include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For information on purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbad, CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet.

Product Application Details	
Applications	ELISA, Immunohistochemistry, Immunohistochemistry-Paraffin, Protein Array
Recommended Dilutions	ELISA, Immunohistochemistry, Immunohistochemistry-Paraffin, Protein Array
Application Notes	Optimal dilution of this antibody should be experimentally determined.
