Snail [p Ser246] Antibody [Alexa Fluor® 647]

| <b>Product Information</b>         |                                                                                                                                                           |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Unit Size</b>                   | 0.1 ml                                                                                                                                                    |
| <b>Concentration</b>               | Please see the vial label for concentration. If unlisted please contact technical services.                                                               |
| <b>Storage</b>                     | Store at 4C in the dark.                                                                                                                                  |
| <b>Clonality</b>                   | Polyclonal                                                                                                                                                |
| <b>Preservative</b>                | 0.05% Sodium Azide                                                                                                                                        |
| <b>Isotype</b>                     | IgG                                                                                                                                                       |
| <b>Conjugate</b>                   | Alexa Fluor 647                                                                                                                                           |
| <b>Purity</b>                      | Epitope affinity purified                                                                                                                                 |
| <b>Buffer</b>                      | 50mM Sodium Borate                                                                                                                                        |
| <b>Product Description</b>         |                                                                                                                                                           |
| <b>Host</b>                        | Rabbit                                                                                                                                                    |
| <b>Gene ID</b>                     | 6615                                                                                                                                                      |
| <b>Gene Symbol</b>                 | SNAI1                                                                                                                                                     |
| <b>Species</b>                     | Human, Mouse                                                                                                                                              |
| <b>Specificity/Sensitivity</b>     | The antibody detects endogenous levels of SNAI1 only when phosphorylated at serine 246.                                                                   |
| <b>Immunogen</b>                   | SNAI1 (phospho Ser246) antibody was raised against a peptide sequence around phosphorylation site of Serine 246 (T-F-S (p)-R-M) derived from Human SNAI1. |
| <b>Product Application Details</b> |                                                                                                                                                           |
| <b>Applications</b>                | Western Blot, Immunocytochemistry/Immunofluorescence                                                                                                      |
| <b>Recommended Dilutions</b>       | Western Blot, Immunocytochemistry/Immunofluorescence                                                                                                      |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.                                                                                    |
