#### NBP2-55920PEP

TOR/mTOR Recombinant Protein Antigen

Product Information       Unit Size       100 ul         Concentration       Please see the vial label for concentration. If unlisted please contact technical services.         Storage       Store at -20C. Avoid freeze-thaw cycles.         Preservative       No Preservative         Purity       >80% by SDS-PAGE and Coomassie blue staining         Buffer       PBS and 1M Urea, pH 7.4.         Target Molecular Weight       27 KDa         Product Description       A recombinant protein antigen with a N-terminal His6-ABP tag corresponding to human TOR/mTOR.         Source:       E. coli         Amino Acid Sequence: TESUSDTYASRIHPIVENTLOGSPELRSTAMDTLSSLVFQLGKKYQIFIPMVNKV LVRHRINHQRYDVLICRIVKGYTLADE         Fusion Tag:       N-terminal His6ABP (ABP = Albumin Binding Protein derived from Streptococcal Protein G)         Concent Streptococcal Protein G       This product is intended to be used as a blocking antigen for antibody competition assays. Any other use of this antigen is done at the risk of the user. The use of this product for commercial production is strictly prohibited. Please contact technical support if you have any questions.         Gene ID       2475         Gene Symbol       MTOR         Species       Human         Product Application Details       Antibody Competition Notes         Application Notes       This recombinant antigen is only intended to be used as a blocking agent to confirm antibody specincity with		
Concentration         Please see the vial label for concentration. If unlisted please contact technical services.           Storage         Store at -20C. Avoid freeze-thaw cycles.           Preservative         No Preservative           Purity         >80% by SDS-PAGE and Coomassie blue staining           Buffer         PBS and 1M Urea, pH 7.4.           Target Molecular Weight         27 kDa           Product Description         A recombinant protein antigen with a N-terminal His6-ABP tag corresponding to human TOR/mTOR.
